isto leather basket

IB2

The isto leather basket is handmade at skram's north carolina workshop. This basket is part of an ongoing exploration of heavyweight saddle leather by skram founder and lead designer a. jacob marks. Isto materializes from a single 'folded' piece of leather secured to shape by matte black double cap. Isto features U.S.A hides in character-grade vegetable tanned, drum-dyed 8-9oz. leather. Skram accessories are available direct-to-consumer via the NYC showroom or nc headquarters.
