arak one-arm sconce

Q30

The arak collection is an ongoing collaborative project between skram lead designer jacob marks and porcelain artist mimi lothetis, whose unconventional hand-forming techniques along with her application of distinctive graphics to the porcelain surfaces are a primary focus. Like the existing pieces, the arak one-arm sconce features a bronze or aluminum arm and oversized cover plates – also in a variety of standard and custom finishes – to support and feature the hand-formed porcelain diffuser. Premium quality, high-efficiency L.E.D. light engines provide illumination. All skram lighting products rate at 90+ CRI, 2700k and are UL listed. This product is suitable for residential or contract use.
